RED Light Therapy Panel

ARTFULLY CRAFTED, APP-CONTROLLED,
INVIGORATING LIGHT.

Our RED/NIR light therapy panel is more than just a device—it's a work of art inspired by nature. Infused with the latest advancements in light science, each session is a transformative experience, enhancing your health and well-being from within. In only a few minutes, bask in the rejuvenating glow to create your most radiant self.

Only Sunlighten has the hand-crafted wood frame in refined elegance and natural luxury, bringing the outdoors inside. And only Sunlighten has a richer, guided app experience.

Redefine Your Wellness

NATURE INSPIRED

Experience the revitalizing benefits of bioactive red and near-infrared light in an artfully crafted, nature-inspired light panel that boosts health and well-being. Its elegant design, combined with an intuitive app and a remote, simplifies your wellness routine, bringing new possibilities for longevity and vitality.

SOPHISTICATED MODERN DESIGN

Light therapy doesn't have to feel sterile and clinical; it can embody sophisticated modern design. Our elegant, nature-inspired approach combines beauty with scientific rigor.

STREAMLINED SIMPLICITY

No more confusion over power density, irradiance, wattage, number of LEDs, or beam angles. Use the intuitive Sunlighten app to eliminate guesswork and complexity with a single button press.

SCIENTIFICALLY OPTIMIZED APP

The Sunlighten RED Light Therapy Panel is engineered to maximize effectiveness based on cutting-edge research. Enjoy curated, science-based wellness programs for everyone from beginners to advanced users.

GUIDED EXPERIENCE

The Sunlighten app provides guidance for time, distance, and intensity to ensure optimal use and results.

EFFORTLESS INTEGRATION

Easily incorporate light therapy into your daily routine to achieve your wellness goals. The Sunlighten RED Light Therapy Panel is the only option that offers lifestyle considerations to boost your longevity and well-being.

SPECIFICATIONS

Max Irradiance/Power Density: 200mW/cm²

Wavelengths: Red 660nm, NIR 850nm

Number of LEDs: 200 (100 Red Light, 100 Near Infrared)

Dimensions: 35" x 11" x 2.76"

Power Input: 100-240VAC, 355W

Beam Angle: 30 and 60 degrees

Weight: 22 lbs/10.2kg

Warranty: 3 years

Power Density:

Red light density increases the closer you are to the panel. Maximum distance recommended is 36". (see illustration in Owners Manual)

6" 200 mW/cm²

12" 165 mW/cm²

18" 140 mW/cm²

24" 110 mW/cm²

36" 88 mW/cm²
